

ESL and Technology: Ideas for Teaching

A blog with ideas, links and samples of uses of technology for teaching ESL and EFL to students of all ages. Second language teachers of any language will find these ideas also very useful.

WORDLE

www.wordle.net

www.audiopal.com

The screenshot shows the AudioPal website interface. At the top, it says "AudioPal Beta" and "Click. Speak. Communicate. Free Website Audio for Everyone". Below this, it says "Create audio for your website with AudioPal, a free website audio software!". The main content area is divided into three sections: 1. ADD YOUR AUDIO, 2. PREVIEW, and 3. GET YOUR AUDIOPAL. Section 1 has a "Record Using Your Computer Mic" button and a "Record" button. Section 2 has a "Preview" button. Section 3 has a "Get It!" button. There are four numbered callouts: 1 points to the "Record" button, 2 points to the "Record" button, 3 points to the "Preview" button, and 4 points to the "Get It!" button.

Write your e-mail here to receive your audio message. Once you receive it you can forward the message to your instructor.

1 Choose the microphone option to record.

2 Click on "Record" to record your message. You have 59 seconds to speak.

3 You can preview your recording by clicking here.
